INTRODUCTORY REMARKS AND TERMS

THE plants offered herein are all sturdy, transplanted and nursery-grown for more than one year, and can be depended upon for flowering satisfactorily the first season after planting out.

Our stock of plants is reasonably large; we have thirty acres of hardy plants in cultivation. We make a specialty of supplying Landscape Gardeners, Dealers and others in the trade.

We print real prices, which, as long as unsold and without engagement, we are willing to accept. The prices are net, except being subject to 2 per cent discount when cash accompanies order; otherwise payable in thirty days from date of invoice on approved credit. Packing charges at cost, f.o.b. Sparkill, N. Y. Owing to the unusual congested state of transportation, all shipments are made at purchaser's risk. To meet reputable competition, we will reduce our prices still further on being given the opportunity.

No less than six of one kind furnished at dozen rates, 25 at 100 rates, 250 at 1,000 rates, unless otherwise specified. Clumps (or plants of extra-large size) can, in most cases, be supplied. Prices on application.

For varieties not listed herein see our Descriptive Catalogue of Palisades Popular Perennials. From prices quoted therein we allow the trade a special, liberal discount.
